

# Personal Health Partners

Lending a steady hand when you need it most!

We know how difficult it can be to navigate the healthcare system. That's why we're here for you 24/7, 365 days a year. Our case managers are experienced in coordinating with health insurance representatives, social workers, claim representatives, pharmaceutical companies, doctor's offices and nurses. The services are free to you and your family members including parents and parents-in-law. **Personal Health Partners** works to resolve your healthcare problems so you have more time to spend doing the things that matter to you.

**Personal Health Partners** does the research to resolve issues -

Scheduling an appointment or referral appointment

Regarding insurance claims and preauthorizations

Regarding prescriptions or insurance coverage

Finding a Caregiver or Facility for Your Loved One

Finding the right doctor for you or a family member or acting as liaison with a primary-care physician

Filling out forms and applications for individual coverage plans, Medicare and Medicaid

Locating items such as oxygen, wheel chairs, diabetic and other supplies and advice on medical equipment coverage

Regarding medical tests, treatment, and medications and preparation for appointments with physicians and other healthcare services

**Call today and speak with a caring professional who will respond to your needs and those of your family.**
